Important notes:

- All language ability tests must be taken less than two (2) years before your EPE date.
- No more than two (2) tests can be combined to meet the minimum required scores.
- If the minimum required score is achieved by combining two (2) language tests, the second test must be taken less than 12 months after the first.
- If you fail to meet the minimum required score in one or more skill, and if the language testing centre allows it, you can take only the deficient skill(s) in the second test if you so choose.
- For the purposes of combining tests, each language test counts as one (1) language test regardless of how many skills are taken.
- If you did not meet the requirements on your language test in one attempt, the passing scores for each category (Reading, Writing, Speaking, Listening) from a combination of any of the following two tests: IELTS - Academic, CELPIP - General and CELPIP - LS or CanTEST) will be accepted. Scoring of IELTS Academic, CanTEST, and CELPIP - General is similar and may therefore be combined in this manner. The exceptions are the CAEL and SEL, which cannot be combined with other tests.
- Please ensure you have informed the language testing centre that you are taking their test to register for the ICCRC EPE.
- Please ensure you have authorized the language testing centre to release your scores to ICCRC.
- If you have your official or unofficial score report, please remember to upload it into the proper field in the online registration portal.
- If you require special accommodations for the language test, these accommodations should be requested from the language test provider.
